PARENTS' TEACHERS' ASSOCIATION

For a disciplined, coherent and effective learning healthy feedback and mutual interactions between Teachers and Parents is most essential in any educational institution.

Child is on the Vertex of the triangle and Parents & Teachers are the base line. Teachers interact with students and students with teachers. The same is between parents and teachers.

When all the three sit together a healthy shape of triangle is formed. We have dedicated full day for this purpose. Every second Saturday of the month has been fixed for parents Teachers Meeting and teaching remains suspended so that teachers may devote full time with the parents and students.
